Moltex Aerocool Fabric

"Absorbs faster and dries quicker than ever"

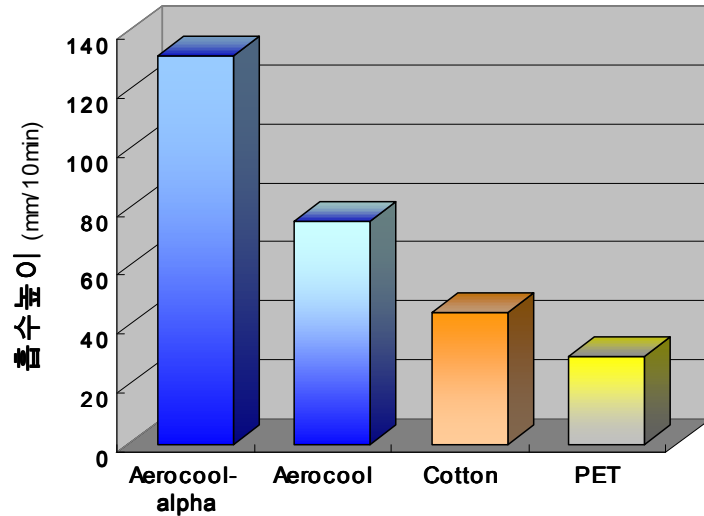

- By absorbing sweat faster and drying quicker than other fabrics, Aerocool reduces the unpleasantness. Aerocool prevents the decrease in body temperature due to evaporation of sweat, sustaining freshness for the whole day even during severe activities.

- Unique cross-section shape
 - The capillary phenomenon, by its broad surface, induces fast diffusion and drying of sweat.
 - Minimal deformation by texturing
 - Soft and supple handle
 - Exquisite luster and lightness
-

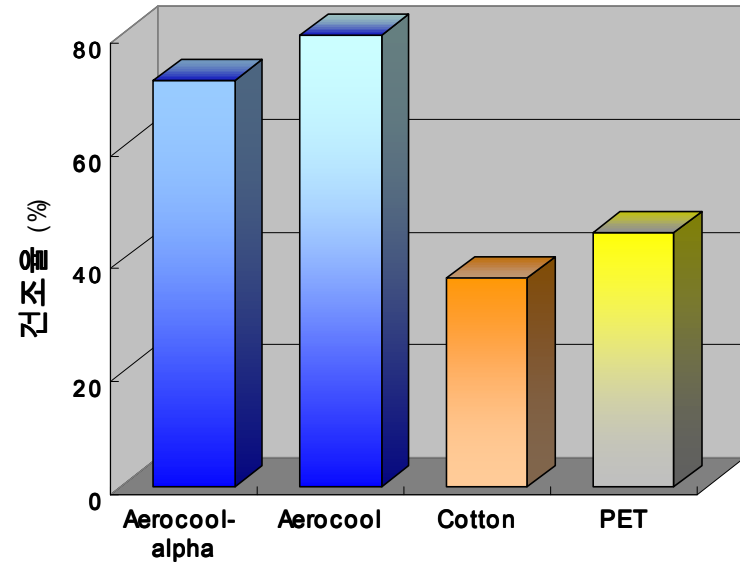

Moltex Aerocool – Characteristic 1

■ Moisture Diffusion Height(mm/10min)

Hygroscopicity (by JIS L 1096)

■ Moisture Dry Rate(%)

Drying (by JIS L 1096)

Moltex Aerocool- Characteristic 2

Moisture Diffusion Time & Area
